NASA Opinion Piece Feedback

Title of paper:

Author name:

Reviewer name:

1. What (in your view) was the argument of this paper?

2. What elements of the paper made the argument most effectively?

3. What factual data did the writer use to help establish a basis for the argument? Was it useful/effective? (Did it seem accurate?)

4. What do you think could be done to improve the argument?

5. How convincing was the argument this paper made? (You might comment on what was most convincing and/or what could be done to make it more convincing.)

6. Finally, what was your favorite part of the paper? (Could be anything.)
